

## SOFTWARE DEVELOPMENT MANAGER

### About the Role

We're seeking a dynamic and driven Software Development Manager to join our team and help grow the world of giving!

### Job Description

- Lead and implement IT planning and development strategies and initiatives in line with Simply Giving's current and future needs.
- Be responsible for the implementation, testing, quality assurance, release management and operation of all technology infrastructure and services including data centres, servers, data bases, service monitoring and system software.
- Develop and design best practices for standards and technology architecture.
- Develop Simply Giving's software architecture and business system plans; assessing cost and feasibility, and ensuring alignment to our strategic goals.
- Understand and set priorities for long term goals while maintaining flexibility to handle prioritisation and assistance with short term goals and issues.
- Analyse department workflow and efficiencies, instituting procedural changes to effect cost reductions and improve quality and productivity.
- Develop and manage strategic vendor relationships, contracts, service agreements and invoices where necessary.
- Responsible for developing comprehensive disaster recovery and failover plans and procedures.
- Lead delivery of the Product Release schedule on time and to budget
- Manage a team of developers to meet and exceed their potential.

### Requirements

- Bachelor's degree in Computer Science
- At least 10 years of IT experience
- Working experience on IT projects with multiple stakeholders and diverse business domains

- Excellent analytical, critical thinking, communication, problem solving and decision making skills
- Proven ability to simultaneously manage multiple complex projects
- Extensive knowledge of emerging hardware and software technologies.
- Hands on technical depth that enables direct oversight and problem solving
- Proven track record in developing and managing staff.
- The role will require the successful candidate to be on call from a website management perspective.

### Technical Requirements

Candidates must have the following experience:

- HTML5 and CSS3 experience using jQuery and Bootstrap 3
- Application and API development using ASP.Net MVC5, Entity Framework 6 and WebApi 2.
- Coding experience with C# using JSON endpoints.
- A minimum of 5 years' experience using Amazon Web Services (AWS)
- A minimum of 5 years' experience in solution architecture and solution design
- Be experienced in release management, deployment and live implementation
- Experience in payment processing methodologies

The above are non-negotiable.

### What's on offer?

- Salary package commensurate with experience.
- Working with a dynamic fun loving team.
- Regional travel.
- Career advancement opportunities for the right candidate.
- The role will be based in Malaysia.

### To Apply

To apply for this role please email your CV to [jobs@simplygiving.com](mailto:jobs@simplygiving.com). Please **include a cover letter** explaining why you are suited to this role.
